

Name Tag Glyph

- Students will be creating a name glyph to use as their name tag using the attributes in the following Name Glyph pages.
- Glyphs will be created on the next page following the directions.

Leader:

- **First**, have the students determine their position in their family. Circle their position and color to write their name.
- **Second**, have the students circle if they are new to Fluency Friday this year (cursive) or have been here before (printing).
- **They may NOW write their name**, with colored pencil/marker/crayon in cursive or print, black, green, red, or blue in the box on the next page.
- **Third**, have the students color the border according to the number of brothers and/or sisters they have.
- **Fourth**, have the students design their name tag according to the month they were born. Students should keep their design inside their name area and not in the border area. Students may color their design within their name area.
- **Lastly**, have the students put the number of dots in the border area according to which day of the month they were born.
- **Wear completed name tags/glyphs** once completed and use as object of discussion in smaller group activities (i.e., see what others have in common with you).

Name Glyph

Create a name glyph (name tag on following page) using the following attributes.

1. What is your position in your family?

	oldest	youngest	middle	only
Write your name in	black	green	red	blue

2. Are you new to Fluency Friday or did come before?

	new	Came before
Write your name in	cursive	printing

3. How many brothers and sisters do you have?

	0	1	2	3	4+
Color border	green	blue	purple	yellow	red

4. In which month were you born? Draw a design on your name tag.

Month	Jan	Feb	Mar	Apr
Symbol	Snowman	Heart	Kite	umbrella
Month	May	June	July	Aug
Symbol	Flower	Fish	Sailboat	sun
Month	Sept	Oct	Nov	Dec
Symbol	Apple	Pumpkin	Leaf	tree

5. On which day of the month were you born?

	1st	2nd	3rd	4 th ...	31st
# of dots on border	1	2	3	4	31

Create your name tag here using the glyph directions. Cut it out once finished to fit your name holder.
